SECRET

24 JUN
1957

MEMORANDUM FOR: Chief, SR Division

SUBJECT: Redocumentation of Project AERODYNAMIC for
FY 1958

REFERENCE: Project AERODYNAMIC Amendment No. 2 and
Redocumentation; Conditional PP Staff Concurrence
for FY 1957.

1. Amendment Number 2 of Project AERODYNAMIC for FY 1957 was concurred in by PP Staff on the understanding that complete project redocumentation reflecting the latest policy aspects on the use of emigres and fuller coverage of the sections on "Effectiveness" and "Evaluation" would be submitted prior to seeking renewal in FY 1958.

2. The following guidance is offered to assist in this redocumentation:

a. A precise statement indicating the degree of reliance to be placed on emigres in psywar activities against the USSR, in the light of (1) the lack of contact with inside elements; (2) the impairment of emigre judgement arising from lack of such contact; (3) the diversity of views and policies among emigres in general and within specific nationality groups in particular;

b. A realistic review of the political/psychological potential of Ukrainian emigre groups, specifically the Ukrainian Supreme Council of Liberation (ZPUHVR) and the organization of Ukrainian Nationalists (ZCHOUN), to effectively influence the USSR target in its entirety, the Ukrainian SSR population, and the Ukrainian nationals in Germany and elsewhere in Europe. Adequate coverage of this topic would include reference to the validity of the "nationality" approach in psywar operations against the USSR and its present and future potential in the light of the progressive loss of contact with the home audience;

SECRET

SECRET

c. A concise summary of the background and composition of Prolog Associates and the reasons for singling out this group to furnish political guidance for radio programs;

d. An objective appraisal of the value of the two Ukrainian language newspapers, published in Germany, Suchasna Ukraina and Ukrainsky Samostiynik, as political instruments against the Soviets in comparison with publications of other SR projects;

e. Since the targets list Ukrainian nationals exclusively, clarify the reasons for (1) an English language magazine in Afro-Asian countries; (2) world-wide distribution of the information bulletin; (3) personal meetings with Afro-Asian intellectuals. Do these activities go beyond the stated concern with the Ukrainian emigration and perhaps overlap other SR projects?

f. Describe how target groups are reached, particularly those in concentration camps and labor settlements in the Eastern-most parts of the Soviet Union.

g. List and evaluate the more important end effects of AERODYNAMIC operations. Is there any political action potential to be realized?

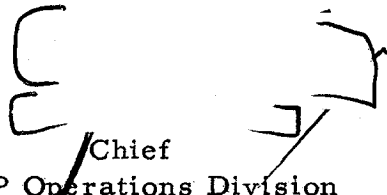

3. In connection with the reappraisal of the project's potential, it is advisable to determine areas of possible duplication, particularly in the process of developing economic, biographic, and political information on the USSR. Also, to what extent do projects AESAURUS and AEVIRGIL encompass the targets and tasks of AERODYNAMIC?

4. Care should be taken not to overstate or phrase in too general terms the results that can be expected legitimately from this project. A detailed evaluation should be made of the specific results desired, the proportion of the targets reached, the content of the publications and broadcasts produced and the effect, where discernible, on the target audiences.

SECRET

SECRET

5. The degree to which unity among the emigration is achieved (on what grounds, and to what ends) should be evaluated. The fact that the total work of the project appears to be handled through PROLOG with writing and research tasks stated most explicitly and organizational work only referred to in general terms suggests a need for careful evaluation of the nature and possible effects of the work in relation to the two organizations ZPUHVR and ZCHOUN. Further, some assessment should be made of the proportion and importance of the emigration within the two organizations receiving support, the importance of other Ukrainian organizations, the relations between the two, the size of the Ukrainian emigre population not reached through these organizations and the percentage of the population of the Ukraine it may be assumed is not reached by way of the "nationality" approach.

6 May 1957

MEMORANDUM FOR: PP/OPS/PR**SUBJECT: Approval of AERODYNAMIC Project
Redocumentation of FY 1957**

1. It is requested that the AERODYNAMIC Project be approved for FY 1957.
2. The reason for this late request is that it had been suggested at first that the approval of this project for FY 1957 be combined with a redocumentation for FY 1958. Due to expanded activities under the present project, an amendment has become necessary, which makes the approval of the project for FY 1957 an administrative necessity. The explanation of these activities is given under "Budget Data" of the present project.

1. **OBJECTIVE:** The purpose of Project AERODYNAMIC is to support selected anti-Soviet Ukrainian emigre groups so that they may continue to demonstrate their opposition to the Soviet system and to dramatize through their existence and activities the fact that the Soviet Union is an imperialistic and anti-national power.

2. **ORIGIN and POLICY GUIDANCE:**

a. Memorandum to CPP dated 25 January 1950,
Subject: "Use of Ukrainian Partisan Movement
Against USSR" (TS No. 35998.)

Project approval by ADPC 17 June 1950
(TS No. 38901.)

USSR NSC 10/2/5 Country Program approved
in principle by DCI, 30 January 1953 (TS No. 88049)
superseded by NSC 5412/2.

SR Operational Program for FY 57.

b. This project originated in the Field.

3. **SITUATION:** When Project AERODYNAMIC was started in 1950, it combined PP, FI, and CE aspects. Since 1955, CE operations involving Ukrainian groups are carried under Project AECARTHAGE, and FI functions are incorporated under Project AEACRE. The PP operations centered in Project AERODYNAMIC are based on the following Ukrainian groups and organizations: The Foreign Representatives of the Ukrainian Supreme Council of Liberation (ZPUHVR) and the organization of Ukrainian Nationalists (ZCHOUN). The followers and sympathizers of these political organizations formed branches among the Ukrainian emigres in the West, in the United States, Canada, and throughout the Free World, and despite the fact that regular contact with the Ukrainian nationals in the USSR has been almost eliminated, these groups continue to carry on the policies and aspirations of the Ukrainian national policies. The Ukrainian emigres are split into many factions, insofar as their political programs and activities are concerned, but in the last few years the Ukrainian nationals supporting the policies of ZPUHVR and ZCHOUN were able to achieve a certain degree of unification and instead of being animated by an unrestrained nationalism, they have supported political activities which in the main coincide with U. S. interests.

S E C R E T

18/5.E.F. For this reason, they are considered as a suitable instrument for furthering U. S. policy objectives. Project AERODYNAMIC has sponsored the organization of a selected group of about twelve Ukrainians who, under the name of "Prolog Associates" (~~XXXXXXXXXX~~), has been incorporated under the laws of the State of New York. This group, functioning as a psychological warfare panel, is the directing organization for all anti-Soviet activities sponsored by Project AERODYNAMIC. Under the direct control of the AERODYNAMIC project case officer it will also finance all specific activities undertaken. While this group is relatively small, it can make demands on a substantial reservoir of manpower constituted by a large segment of the total Ukrainian emigration. (In the U. S. and Canada alone there are over 2½ million emigres of Ukrainian origin.) Through these emigres, AERODYNAMIC has been operating in the U. S., Canada, Western Europe, Argentina and Australia. At the same time, it must be pointed out that AERODYNAMIC support is given only to those Ukrainian activities which are actively anti-Soviet and directly in the U. S. interest.

4. PROPOSAL: It is proposed that Project AERODYNAMIC continue to carry out its objectives by using the Prolog Associates in New York and the two groups stationed in Germany as its instruments.

5. OPERATIONAL OUTLINE:

a. Subproposals or "tasks."

(1) Through the case officer's contact in New York with the Prolog Associates, render financial assistance to the ZPUHVR and the ZCHOUN in order that they may fulfill their role in keeping the Ukrainian nationalist spirit alive and use the political potential of their members.

(2) Through the Prolog Associates, continue subsidizing the Ukrainian language newspapers Suchasna Ukraina and Ukrainsky Samostiynik, published in Germany as political instruments directed against the Soviets.

(3) Through the Prolog Associates, provide financial support and political guidance to the Ukrainian language broadcast over PYREX, Athens.

S E C R E T

(4) Through the Prolog Associates, provide financial support and political guidance to the Ukrainian language broadcasts over Radio Nacional, Madrid.

(5) Through the Prolog Associates, provide guidance and limited financial support for the Ukrainian propaganda against the Soviet colonial imperialism throughout the Afro-Asian countries. This action provides for publication and distribution of an English language magazine and the organization of personal contacts and meetings with the intellectual representatives of the Afro-Asian countries.

(6) Under the control of Headquarters case officer, the Prolog Associates will provide guidance and support for special political tasks as they may arise. Recent examples are: the organization of political action in Argentina to counteract the Soviet propaganda for repatriation; and distribution of anti-Soviet literature to the Soviet Olympic Team in Melbourne, Australia.

b. Key Personnel.

AECASSOWARY 2 - President of AEBEEHIVE.
Principal Agent directing the operation of the group, both state-side and overseas.

AECASSOWARY 3 - Vice-President of AEBEEHIVE.
Director of operations in Germany.

AECASSOWARY 17 - Vice-President of AEBEEHIVE.
Chief Editor of publications and radio scripts produced by AEBEEHIVE.

AECASSOWARY 22 - Secretary and translator for AEBEEHIVE.

AECASSOWARY 25 - Treasurer and accountant for AEBEEHIVE.

c. Indigenous groups and/or leaders.

ZPUHVR (Foreign Representation of the Ukrainian Supreme Council of Liberation). Indirectly involved. Leaders are CASSOWARY 2 and 3.

S E C R E T

ZCHOUN (Foreign Section of the Organization of Ukrainian Nationalists). Leaders are CAVATINA 1, CAVATINA 16 and CASSOWARY 19. Indirectly involved.

d. Target Groups

- (1) The Ukrainian population in the USSR (About 40 million).
- (2) The Ukrainian nationals in concentration camps and forced labor settlements in the Far East (5-8 million).
- (3) The Ukrainian nationals in Germany and Europe (200,000).
- (4) The Ukrainian nationals in Argentina and Latin America (80,000).
- (5) The Ukrainian emigration in Australia (10,000).

Communication with the Ukrainian nationals in the Iron Curtain countries is pursued primarily by means of radio, and communication with the Ukrainian emigration in the West is maintained by distribution of the Ukrainian language papers.

e. Duration

This Project will continue as long as it will be accomplishing Agency objectives.

Graphic Illustration

- f. Not applicable.

6. SECURITY:

a. Cover

Headquarters - Under the name of Prolog Associates, the Ukrainian group has been incorporated under the laws of the State of New York as a publishing and research organization on questions of Eastern European affairs. Political action carried out by Prolog Associates in the Afro-Asian countries will be undertaken as a political drive of the Ukrainian nationalistic movement interested in sponsoring the independence of and amity among other former colonial people.

S E C R E T

Staff - Project field personnel in Germany operate and represent themselves as the members of the Ukrainian emigre movement engaged in anti-Soviet propaganda.

b. Knowledgeability - Only the few leading members of Prolog Associates are knowledgeable of U. S. intelligence interest. Prolog Associates are witting of U. S. interest in their political activities. Covert clearances have been obtained for all of them. The Department of State, the Department of the Army, BIS, and the German Government are aware of this support of emigre groups.

c. Operational security - In providing financial support for the activities envisaged in this Project, the Field personnel will be advised that the funds for the support of their activities are being supplied by various private sources in the United States and Canada who are interested in the Ukrainian National Movement. The radio broadcasts will be attributed to a notional group of Ukrainian anti-communists. There will be no connection, actual or implied, with any established Ukrainian emigre group. Since the broadcast tapes will be recorded in the United States and then flown to Athens and Madrid, no physical security problems are envisaged in this operation. The existing headquarters of the group in New York will serve as an office for preparing the scripts.

d. Risks - The risks involved in the operations outlined above consist of exposing the activities of an independent nationalistic movement based on the financial support of the Ukrainian emigres in the U.S.A. and Canada. No connection between the U. S. Government and the activities of this group at any time will be revealed. After incorporation of Prolog Associates, the financing of the project will be undertaken through the medium of a cleared Ukrainian individual with sufficient financial backing to act plausibly as a chief sponsor of the Ukrainian nationalistic movement. This individual, because of his financial status and widespread connection, provides an efficient cover for all the financial transactions between the Agency and Prolog Associates.

e. Personnel Disposal - Because of the above-mentioned arrangement, the security of the operation would be enhanced by the independent status of the Ukrainian nationalist group, and because of that, disposal problems are not envisaged in any way or manner, except the financial responsibilities of the group itself towards their individual members.

S E C R E T

f. Disaster Plan

(1) Chief of Station in Germany will make all necessary arrangements for evacuation of key agent and political personnel to safe places in Western Europe or the Western Hemisphere.

(2) Arrangements have been made in the Field to destroy material or evidence indicating American interest in this organization in the past. In the future, the new arrangement that will take place with the establishment of headquarters of the group in New York, no direct contact indicating American interest in their activities will be maintained or continued in the Field.

7. COORDINATION

a. Relation to other projects.

(1) AERODYNAMIC, using the Ukrainian groups for PP activities, is supplemented by AECARTHAGE and AEACRE using the same groups for CE and FI purposes.

(2) Although AERODYNAMIC is sharing the facilities of PYREX, this Project will in no way conflict with other broadcasts from Athens over the same station.

(3) AERODYNAMIC deals exclusively with Ukrainian emigres; there is no relationship with either AESAURUS or AEVIRGIL who deal chiefly with Great Russians. There is no overlap of targets since AERODYNAMIC, both inside the USSR and abroad, concentrates on strictly Ukrainian interests.

b. Significance within over-all program in area.

The Ukrainian emigre organizations represent a very large body of people who are a continuous reminder to the Soviets of the failure of the regime. They represent a very large reservoir of manpower that can be used for political action against Soviets in many fields.

c. Extent of coordination.

(1) This Project is fully coordinated within SR Division through a coordinator of the AERODYNAMIC,

S E C R E T

AEACRE and AECARTHAGE Projects. In the Field it is coordinated through the Chief of Station, Germany.

(2) The State Department and the Department of the Army are aware that the Agency supports Ukrainian emigre groups. There is no active coordination.

(3) The German Government and BIS are aware of the Agency's over-all general interest in the Ukrainian emigration as a representative of the nationalistic forces in the USSR.

8. CONTROL

a. The organization of control, guidance, and direction of the entire activities of the group will be centered in Agency Headquarters in Washington. This control will be exercised through the office of SR Division and will be entrusted to the case officer. He can propose activities to be carried out by the group or approve proposals made by the group. The Administrative Plan prepared by PAPS at the present time incorporates all the necessary measures of control that will provide for the independent status for the Ukrainian nationalistic group and their activities, and at the same time will guarantee the efficiency of control, guidance, and direction of these activities in accordance with our objectives.

9. BUDGET DATA:

a. Total over-all Agency funds required for Fiscal Year 1957:

Salaries	55,400
Travel	
Telephone, telegraph, etc.	
Rents, Utilities, Maintenance	
Office Supplies, Services, Equipment	
Entertainment	
Aids, Grants, Contributions	
Taxes, Insurance, Miscellaneous	
Special Projects and Activities	
Subsidy, Ukrainian language newspapers	

Case Officer Travel

S E C R E T

This project was approved in the amount of [] for FY 1957 renewal on an interim basis pending complete redocumentation in project outline format which is presented herewith. Amendment No. 2 requests an additional [] for FY 1957, increasing the project authorization to []. The increase in the AERODYNAMIC budget for the 56-57 Fiscal Year is required because of the necessity to defray expenses in connection with the new type of activities undertaken by the project, such as:

- (1) Preparation and distribution of the information bulletin on a world-wide scale.
- (2) Organization of book distribution to the Soviet personnel in the Free World which entails the costs of purchasing the books, mailing them, and the overhead expenses incidental to the distribution costs.
- (3) Increase in salaries of the personnel which was required by the increased cost of living.
- (4) Purchase of equipment for recording radio tapes for broadcasts through the PYREX station.

b. Availability of Agency funds required.

Funds are available in the current SR Division budgetary allocation in the amount of [] requested by Amendment No. 2.

c. Non-Agency funds.

None required.

d. Foreign currency.

To be used in overseas operation of the group. The manner of its acquisition is outlined in the Administrative Plan.

e. Funding.

In accordance with the approved Administrative Plan.

S E C R E T

f. Financial history.

FUNDS USED BY FISCAL YEAR SINCE INITIATION
OF PROJECT:

FY 1954	-	{	
FY 1955	-	{	
FY 1956	-	{	

g. Future requirements.

Operating costs of AERODYNAMIC/PP Project during FY 1958 are being programmed at [].

10. SUPPORT DATA:

a. Total Agency personnel.

All required Agency personnel to Staff Project AERODYNAMIC are available to handle the PP responsibilities:

Headquarters T/O

Headquarters Case Officer PP	1 (Hqs or Station T/O)
Jr. Case Officer for Administrative Support	1 (Hqs or Station T/O)
Secretary	1 (Hqs or Station T/O)
Total - - - -	3

b. Training.

NA

c. Materiel.

Communications equipment or any other special equipment not available or difficult to obtain on the commercial market may be needed.

d. Communications.

Existing facilities in Athens, Greece; and Madrid, Spain will be utilized for the broadcasting. The Athens transmitters have a total power output of 2000 watts. The stations will have an audible radius of 1,300 miles under optimum conditions. No extraordinary requirements or facilities over those mentioned herein will be required.

S E C R E T

e. Other Agency support:

NA

f. Support required from other United States agencies:

None

11. GENERAL CONSIDERATIONS:

a. Current Status

PP operations are now being conducted under Project AERODYNAMIC.

b. Commitments

None except those mentioned in Project.

c. Effectiveness

A good working relationship with the ZPUHVR groups has been established and greater effort is now being exerted in the political and psychological field. Prolog Associates are currently supplying the Agency with political and economic information on the Ukrainian SSR and biographic information on the Communist Party in the Ukrainian SSR. Supported ZPUHVR organs, Suchasna Ukraina and Ukrainskiy Samostiynik, have continued to maintain a high journalistic reputation within the Ukrainian emigration. Prolog Associates are also producing radio scripts in the Ukrainian language for broadcasting into the Ukrainian SSR and publishing the English language magazine for distribution in the Free World.

d. Anticipated Results

It is anticipated that with proper support and guidance from SR/PP Staff, both groups (ZPUHVR and ZCHOUN) and other organizations as represented by Prolog Associates in New York, and newspapers (Suchasna Ukraina and Ukrainskiy Samostiynik) in Germany will be able to maintain and expand their

S E C R E T

political influence among the Ukrainian emigres in the Free World and that they can be successfully utilized for the purpose of countering Soviet propaganda and influencing the resistance movement and activities within the USSR proper.

This Project is partly based on the need to make a more significant propaganda impact on this strategic target area. The presentation of clandestine broadcasts specifically tailored to the needs of the target audience will augment the existing United States and Agency efforts. Thus, a psychological climate can be fostered which will be more favorable to the conduct of other SR operations in the Soviet Ukraine. The studies produced by the Soviet Study Group will supply the Agency with information on the Ukraine SSR and the Communist leadership which will be used in the fulfillment of the U. S. Intelligence and Psychological Warfare Missions.

e. Evaluation.

The activities undertaken within Project AERODYNAMIC will be continually reviewed and appraised by Headquarters and the Field PP case officer to ensure the continual accomplishments of Project objectives.

f. Policy Questions

NA

g. Congress

NA

h. Extra-Agency action

NA

i. Proprietary companies

NA

j. Special Considerations

Although practical considerations have led to dividing the PP, CE, and FI functions into three separate projects, some Ukrainians are used by AERODYNAMIC, AECARTHAGE, and AEACRE. To insure coordination at Headquarters, a coordinator of the three Projects has been appointed by SR Division.
